

NuMeTM

Luxury Salon (Unisex)

Hi.... This is Stella Titus head of **NuMe** Family, I am a makeover artist, **NuMe** is my professional beauty salon to full fill my enthusiasm about beauty & hair care I thought that whether my dream is to open a own Salon, when I went to a salon what I need exactly get to be done, that I wanted to provide to my clients this is my Idea & my visionso that I design it to my own....

Here I am planning to spread my **NuMe** Family with collaboration of new franchise partners in south india (Andhra, Telangana, Karnatak & Kerala)

Beauty salons have been a recession-resistant industry across the World. with a long-term positive forecast. Despite the tendency for consumers to be more price-conscious during recessions, spending continued to increase. With rising per capita incomes across the World since 2015, Hair care was the largest segment. Growing annually by 7-8%. This growth was driven in part by increasing awareness of the importance of skin & Hair care among world wide women, but also specifically due to an increase in the market for men In 2020, the market was distributed widely across All the world, with a concentration in the Northeast and Midwest. There was also a growing trend in boutique salons popping up and leveraging online marketing to gain customers and compete with the franchise chains. with the greatest employment growth from skincare specialists. Beauty salons employ cosmetologists specializing in general beautification techniques. Cosmetology licensing requirements vary from state to state and depend on which specific license type is desired: general cosmetologist, hair stylist, esthetician, manicurist, barber, electrologist, or other.

Before the investment everyone what know the ROI (Return Of Investment) Right no need doubt on your investment mostly you will get back your investment within 4-5years based on location of franchise if we are moving to busy or prime area then will get it in 3-4 years..... But this an one time investment here you no need to invest regularly. what you are getting from business just you need to pay rents & salaries that's it remain the profit. For salon maintenance you need spend 15% from the business 60% for salaries & rents remaining 25% is profit if you less a 10% for misllenious expenses then you will get 15% share as profit
